SAP BPC NW

Course description

With SAP BPC offers a single vision about the financial and operational data. It is an integrated solution that provides support for performance management processes. SAP BPS provides built-in functionalities for budgeting, reporting, strategic planning and forecasting. The SAP BPC includes two platforms, SAP BPC MS (Microsoft Platform) and SAP BPC NW (Net Weaver Platform).Both of the modules contain about 80% of similar functionality, but have some difference in back-end. Each platform has two versions

Student Take away

- Study Material
- Learning stuff
- Sample project for practice

SAP BPC NW Online Training Curriculum

Training overview

- BPC Architecture
- Data Loading from Source System to BPC
- Planning, Forecasting & Budgeting
- Reporting
- Security Features
- Work Status
- Process Chains
- Business Process Flow
- Script Logics
- EPM Excel Add In Functions
- Consolidation
- Migration Process to BPC 10.0

Definition of Dimension, Types & its Properties

Hierarchies on Dimension
- Models

Configuration / Creation of Model

Data Loading in BPC
- Overview of Data Loading Processes in BPC

  ➤ **Master & Transactional Data Loading Process from Flat File**

  ➤ **Master & Transactional Data Loading Process from Business**

Warehouse (BW)
- Using Data Manager Functionality in BPC in uploading Data

Data Manager Packages
- Using Standard Data Manager Packages
- Customizing Standard Data Manager Packages
- Creating Data Manager Packages

Reporting in BPC
- Reporting Components in BPC
- Standard EPM Reports
- Overview of the EPM Add-In Components
- Report Editor, Report Selection, Formatting of Reports

Forecasting, Planning and Budgeting in BPC
- Overview
- Planning Process

  ➤ **Initiate Planned Data**

  ➤ **Copy Process**

  ➤ **Executing Calculations in Planning Process**

Security Features
- Users
- Teams

- Task Profiles and
- Data Access Profiles

Work Status
- Configuration of Work Status
- Reporting and Managing of Work Status

Business Process Flows
- BPF Overview
- Setting up BPF's
- Execution of BPF's

Logics
- Dimension Logic
- Introduction to Script Logics
- Worksheet Logic
- Business Rules

Consolidation in BPC
- Overview of Consolidation Process
- Setting up Journal Entries
- Rate Model
- Currency Translations
- Inter Company Eliminations
- Validations

Other Topics
- Audit Reports
- Transports
- Project Work
