BISP Solutions

BISP Salesforce Services

Who are we?

BISP Solutions Inc. was founded in 2012 as a IT consulting and service provider, specializing in Salesforce, Oracle EPM / BI technologies. Our primary objective is to use our expertise to offer best Salesforce solutions and being cost effective. In a relatively short period of time, we have successfully become an information technology company having a long list of clients in North America.

Our ultimate goal is to save time and money of our business partners by delivering a highest quality of solution/services. We believe that working closely with customer and having detailed understanding of the business domain is the key to success. Our iterative methodology has proven to be very successful in this regard.

BISP business methodology is based on 5C's.

- **Commitment:** As a wise man once said, "Commitment is what transforms a promise into reality". We are committed in providing the best possible solution to you.
- Collaboration: We collaborate and communicate with you to understand your business requirements and
 using our collective knowledge to provide a solution that not only follows cutting edge technology and best
 practices but is also simple to use.
- Consistent: We guarantee our solutions and have been consistent in delivering cost effective solutions to our business partners.
- Cost Effective: This is where we shine. We provide solutions that while being cutting edge are also financially feasible. Our Onsite / Offsite (consultants based in US) model provides the best in technology solution while keeping the cost significantly low of what leading consulting companies charge.
- **Customized:** While we can implement out of the box solutions, we strive to provide a solution that works for you.

BISP Salesforce Services

BISP Solutions announces the Salesforce Sales Cloud Jumpstart Service powered by Salesforce CRM Suite as a part of CRM Solutions offerings. BISP Solutions Salesforce Sales Cloud Jumpstart provides a fast, flexible approach to application development and deployment, enabling you to realize immediate benefits of your Customer management, Sales Planning and Performance Management solutions. BISP Solutions Salesforce Sales Cloud Jumpstart combines product expertise, productivity tools and best practices to achieve implementation success and provide strategic value.
